

THREE MORE IRVINE MEN BROUGHT DOWN

Federal Officers Get Busy After Capture of Car Containing Moonshine

City Marshal R. G. Philpot, of Irvine, and Deputy U. S. Marshals, Hugh Samuels, Paul Williams and J. C. Kincaid brought the pals of Tom Hill, who were detected bringing moonshine whisky into Irvine in an automobile, to Richmond late Saturday. They are James Hines, known as "Shorty" Hines, and Ambrose Young, and they will have a hearing before U. S. Commissioner Warfield Bennett Wednesday. At the same time Estill Wallace, who owned the car in which the booze was being transported, will have a hearing. He is charged with the prohibition offense of transporting whisky, and is liable to prosecution and to have his car seized and sold. Mr. Bennett said that the men say they hired young Wallace, who is a son of Tom Wallace to drive the car for them.

Tom Hill, who remained in the car and was caught, had his hearing before Commissioner Bennett Saturday and was released under \$300 bond to await trial in federal court at the April term.

The officers who made the arrests say that Hill and his friends have been hootlogging whisky in Irvine. The officers say the men have been buying it out in the hills from moonshiners and bringing it to town and selling it at a good profit. Marshal Philpot did some fine detective work in this instance, however, and spotted the men and the car with the goods, so cleverly that he is said to have the most complete proof that has yet been obtained in a case of this kind. About three gallons of moonshine whisky is said to have been captured.

After he had investigated the cases himself, Chief Deputy Collector U. G. McFarland, from the Lexington office, detailed Deputies Samuels, Kincaid and Williams to the case, and they are looking into all angles of the affair. They were in Richmond late Saturday.

McFarland Discusses 'Shiners' In this connection, Mr. McFarland gave a Lexington paper the other day a very clever description of the traits of the festive moonshiner, as he found him. McFarland has had wide experience in hunting them down, and is having just a little more of it now than ever before.

During the ten years that McFarland has been a "raider" he has captured between 500 and 600 moonshiners, has been shot thru the breast as the result of one encounter and has been shot at so many times that he cannot recall all the incidents.

Hiding in a hollow near a branch far away from any residence, the shrewd mountaineer moonshiner silently does his work. The boiling kettle and the dripping "white mule" constitute his company while he labors and he is happy.

Altho moonshiners are as a rule as ignorant as it is possible to be, they are all foxes and seem to have the inherent art of making their escape and concealing their still. It is in the manner in which they hide the still that their extreme shrewdness is evidenced.

Sometimes the smoke from the distillery—the bane of the moonshiner's existence—is piped a considerable distance to conceal the base of operations. In one instance that has come to Mr. McFarland's attention, the smoke was carried into a beech tree and it seeped out slowly that it was invisible from a public highway only 300 yards away.

Nobody knows the menace of a footpath as well as does the man who makes his living out of being able to effectively secrete himself. Never does a path lead directly to a still. On the other hand, the moonshiner often deploys for miles around to evade pursuit. He will walk for an hour when he could reach his destination in a few minutes.

Moonshiners are of various types. There are those who are as submissive as lambs and who are willing to "squel" on their confederates if it will tend to lighten their own sentences.

But this class is in a minority. Most of them are silent, never speaking unless spoken to and then not if it will assist in catching others in the net of the law. Then there are others who are ferocious as lions. They swear they will never be taken alive and generally make good, altho most of them die with their "boots on."

Despite his ignorance, the moonshiner is not superstitious. He could see a light of the moon, or even better, in the dark of the moon. But he doesn't. Whenever he feels he needs

NEWS OF THE LEGISLATURE

The House concurred in the Senate amendment to the Huntsman bill to tax race tracks \$2,500 daily, and passed the bill, as amended, 67 to 0. The amendment permits the racing commission, instead of jockey clubs, to fix the purses. The House concurred in Senate Amendments to the bills to impose a one-cent license tax on gasoline sold at retail, the proceeds to go into the road fund, and to require passenger trains once each way every day on railroads, and passed the bills without opposition.

The resolution of Senator Baker, calling on Congress to enact appropriation legislation to enable the United States Government to purchase all of liquors in bonded warehouses at a reasonable price, was passed.

Representative Hamilton's bill to provide method of assessing omitted property, and fixing duties of county clerk and state tax commission, was passed, 64 to 0.

The bill of Representative Goopinger to allow life insurance companies to insure against sickness and temporary disability, was passed, 62 to 1. The bill of Senator Atwood to regulate freight rates on ground limestone, was passed, 79 to 0.

Senator Whitaker's bill to prohibit moonshining, to punish persons for possession of a still, and providing for search and seizure, was passed, 64 to 41.

Governor Morrow signed the bill of Representative Huntsman, making Corbin and Maysville to be third-class cities; Irvine, Clifton and Scottsville fourth-class cities, and Perryville fifth-class city.

The Governor signed two Senate resolutions, one appropriating \$1,500 for a bronze memorial tablet for Kentucky's dead in the World War, to be placed in the Kentucky Historical Society, the other providing for printing of copies of the new road law for distribution to County Judges and members of the General Assembly.

He gave his approval to the bill of Representative Homer McLellan, to provide that candidates for Circuit and Appellate Judges need not declare party affiliation and that their names may appear under more than one party emblem.

The bill of Senator Simmons to prohibit handbooks, and the measure of Representative Mason to amend Section 91, 93 and 95, Kentucky Constitution, and providing for appointment of a State Superintendent of Public Instruction, were signed by Governor Morrow. The Governor also signed the bill of Representative Beckham to authorize the State Fair Board to issue \$300,000 in bonds for buildings.

PAINT LICK COUPLE WED AT JEFF-VILLE

Among the Kentucky couples married at Jeffersonville, the Hooiser Gretna Green, Saturday, the following are named. Judson Robinson, 21, farmer, and Miss Pearl Boone, 18, Stanford; Blain Estridge, 21, merchant, and Miss Arnola Ramsey, 18, of Paint Lick.

Expecting Another Well In This Week

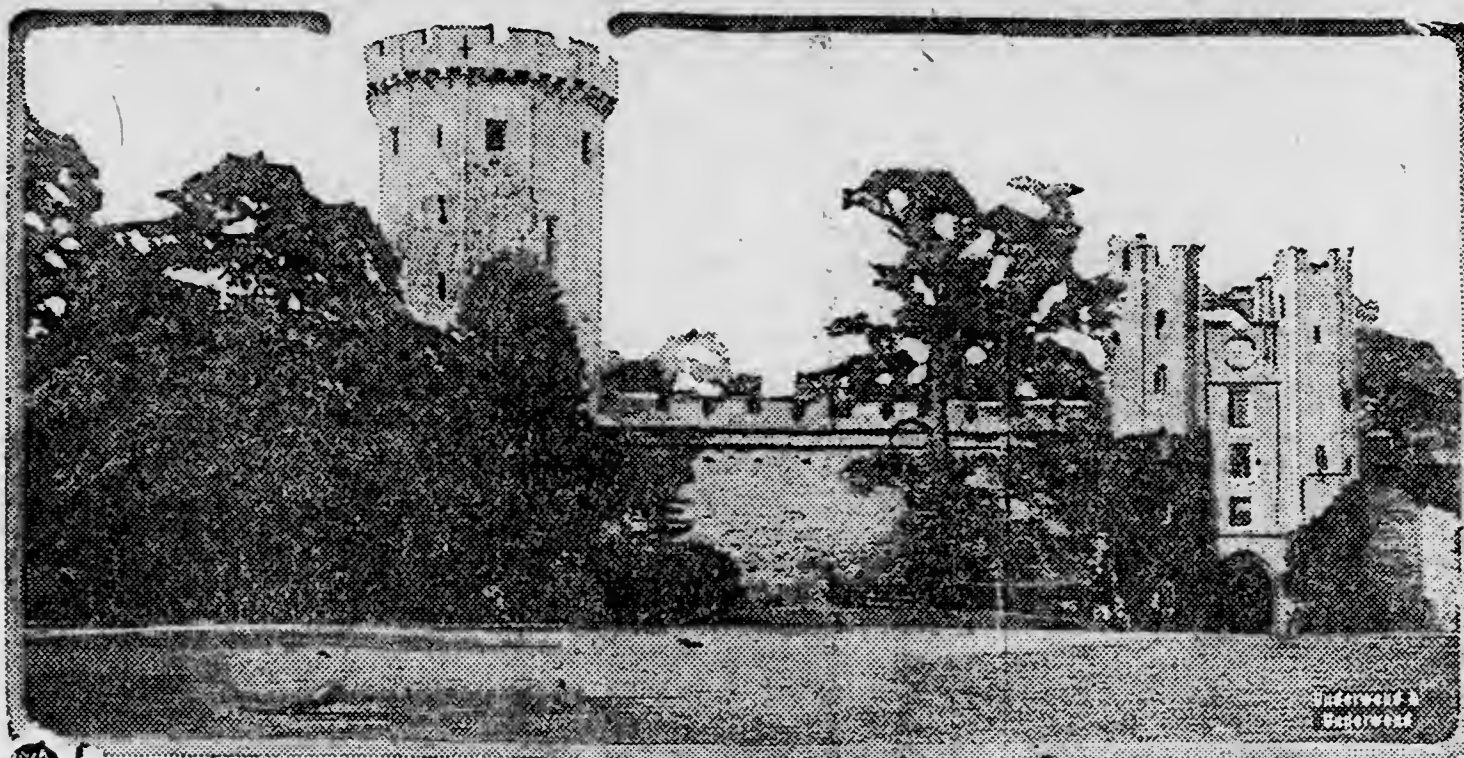

Prof. G. D. Smith, of Eastern Normal, is wearing a broad smile on his face as he has received word from his oil lands that a new well will be drilled in this week. This will be good news to the stockholders of the company which Prof. Smith organized only a short time ago, especially so, since the price on oil is steadily advancing.

NEFF SECURES BIG ORDER

Coleman Neff, the big Serv-Us salesman, received words of commendation from the Power Grocery Company, of Paris, over a big order solicited from the Richmond, Welch Company. Mr. Neff showed a representative of the Daily Register, an order for seventy-seven products of the Serv-Us line, which the Welch Company had given him for their grocery department, and it was perhaps one of the biggest orders ever solicited in Richmond by any Knight of the Grip.

MR. STANIFER LOSES BROTHER

News was received by relatives in Richmond Sunday, of the death of Mr. Will Stanifer, of London, who has been suffering with pneumonia the past two weeks. Deceased was a brother of Mr. Joe Stanifer, of this city, who left here the latter part of the week to be with him. Every medical attention was given the sufferer in an effort to prolong his life. Mr. Stanifer was in his sixty-fourth year, and had been a member of the Baptist church for years. He is survived by his wife and seven children who have the sympathy of friends here, where they have often visited.

TOBACCO SEASON CLOSED FRIDAY

The tobacco season came to a close in Richmond Friday, after a successful run for both houses. The managers of the Home and Madison houses have undoubtedly given the farmers of Madison and surrounding counties a square deal in all their transactions, maintaining an average throughout the season equal to any of the tobacco markets in the state. The farmers have realized the fact that it is not necessary to take their tobacco out of Richmond to get its true worth in price, and have patronized the local market liberally. Richmond is being recognized as one of the best tobacco markets in the eastern part of the state, and, with each season the volume of business is steadily growing.

SERVICE STATION LOCATES HERE

The Consumers Service Station incorporated, of Rock Island, Ill., has its representatives in Richmond this week, making arrangements to install a big, first class filling station. They have an option on one of the best pieces of property on Main street, which is centrally located and will most likely take it over this week.

The representatives are selling \$250 certificates and will redeem these for \$500 by monthly installments through one of the local banks. There are 50 of these shares to be disposed of and anyone interested in seeking a good conservative investment can see Mr. R. P. Ray or Mr. A. W. Wagner, who are stopping at the Hotel Glyndon.

This company will also install their warehouse and tanks on the railroad site and have truck service in the county. This company has been investigated by the Southern National Bank of Richmond and they have received the following telegrams:

March 11, 1920. Consumers Service Station, incorporated, rated responsibility of \$500,000; credit high.—R. G. Dunn & Company.

March 13, 1920. Consumers Service Station, of Rock Island, Ill., well established here; our dealings satisfactory and believe proposition good.—C. A. Lacey, Cashier, Keota, Iowa. 64 1c

"Old Man Harris Fined \$1,000" (By Associated Press) Louisville, March 15.—F. L. "Old Man" Harris, widely known for his oil operations, was fined \$1,000 in federal court here today. He was charged with using the mails to defraud.

MADISON BOY HOME AFTER FINE SERVICE

Corporal Joe Allen, of Duluth, Discharged From Army As An Invalid

An interesting story is to be found in connection with Corporal Joe Allen, of Duluth, who has just been discharged from the army, and has left the Camp hospital, to return to his home in this county.

Corporal Allen is a member of Co. C, 339 Infantry. He enlisted April 26th, 1918. He received his training at Camp Taylor, Custer and Mills. He sailed for foreign service in July, 1918, landing at Liverpool, England, August 1.

After a short stay at Camp Cowshot, Stony Castle, England, he was assigned to duty at Archangel where he served from September 4, 1918, to June 3, 1919. He left the service as an invalid and was sent back to the United States, to the hospital at Camp Merritt. After a short stay there he was transferred to the Walter Reed Hospital, at Washington, D. C. Corporal Allen has received his discharge and goes for a short stay in the hospital at Berea. From there he goes to his home at Duluth.

On August 4th, 1919, he was granted a 30-day furlough from the Walter Reed Hospital to visit him. He has never been able to return, and so, after receiving treatment at home and in the hospital at Berea for several months was sent to Camp Taylor where he has been under treatment for the past five weeks.

Mr. A. C. Webb, a cousin, has been at Camp Taylor the past few days helping to complete arrangements for Cor. Allen's discharge. Two half brothers and Miss Eliza Lake have visited Corporal Allen during his stay at the camp hospital. His cousin, A. C. Webb and Miss Lake accompanied him on the trip from Camp Taylor to Berea.

Corporal Allen received a 40-per cent disability discharge. He also carries a \$10,000 government insurance policy.

Johnson Only Entered

Candidate In N. Dakota Bismark, N. D., March 15.—North Dakota faces the unique situation of a presidential preference primary on March 16, with but one candidate entered. Senator Hiram W. Johnson, of California, now stands alone in the field. Intra-party delegation contests, pivoting about the Non-Partisan League, constitute the chief barbed wire entanglements on the voters' battlefield.

Major General Leonard Wood and Governor Frank O. Lowden, of Illinois, refrained from filing nominations in this state after a second republican state convention had voted that delegates to the national convention should go unimpaired.

Wm. Jennings Bryan withdrew his name as a democratic candidate leaving the California Senator a challenger without opposition.

The primary is to select for each party a national committeeman, five presidential electors and ten national convention delegates.

Fixtures were received last week for a new restaurant which was opened in the Bettie Little building on Second street, by Dr. R. L. Clark last Saturday. A soda fountain is installed, and it is the intention of the management to conduct a first class lunch room, and ice cream parlor.

STATE BANKS PROSPER AS NEVER BEFORE

State banks in Kentucky are having their most prosperous era, according to State Banking Commissioner Spicer, in a statement at Frankfort. He said:

"The 23rd condensed statement of Kentucky state banks shows a remarkable growth in resources and deposits since the banking department was created July 1, 1912. Resources have increased in seven years from \$110,096,102.83 to \$236,969,653.83, or an increase of 115 per cent.

"Deposits have increased in the same time from \$73,040,497.04 to \$188,459,445.25, or an increase of 158 per cent.

"We have had only two state bank failures since April, 1916. One will pay out in full and the other will be settled with only a small loss to creditors.

"This splendid record has been achieved under the most trying conditions. Many obstacles have been encountered and overcome. The state banks have grown and prospered in spite of the propaganda circulated from Washington which by insidious comparison seeks to build up national banks at the expense of the state banks, and by the Federal Reserve Banks, which have tried coercion.

Many state banks have reported very unusual and offensive methods adopted by the Federal Reserve Banks to enforce collections at par, yet Gov. W. P. G. Harding, of the Federal Reserve Board, told the Senate committee that coercive methods have never been resorted to, and continued: "The board has only endeavored to carry out the provisions of the law without discrimination and if any agent, through excess of zeal, has adopted any other attitude it has been without the consent or authority either of the Federal Reserve Board or the Federal Reserve Banks themselves. Substantial proof in great volume can be produced to show that Gov. Harding is not in touch with the management and methods used by the Federal Reserve Banks and their branches."

PASSES AWAY AT RIPE OLD AGE

Mrs. S. L. Huguley age 75 years passed away Sunday night at her home on Walnut street, after an illness extending over a period of eight months, during which time she was never heard to murmur or complain. Her life of christian patience should be an example for others. She has been spared, as companion to her aged husband 55 years. The following daughters with him survive her. Mrs. J. H. Jeffries and Mrs. J. H. Shearer and Miss Flora Huguley of this city, Mrs. Robert Scudder, and Mrs. Joe Powell of Arizona. Funeral services will be conducted at the grave Tuesday morning by Dr. O. Olin Green of the Baptist church of which she had been for many years a faithful member.

HOOVER ON G. O. P. LIST IN MINNESOTA TODAY

(By Associated Press)

St. Paul, Minn., March 15.—Republicans throughout Minnesota are voting today at a special primary election to indicate their choice for a presidential nominee. Ballots for the primary were prepared by the various county committees and they were not uniform. Some committees had Herbert Hoover's name printed upon their ballots, while others did not recognize Hoover as a candidate. The Herbert Hoover Club of Minneapolis, which demanded that State Chairman Lindquist allow Hoover's name to be put before the voters, was informed by Lindquist that he would not approve such action unless Hoover himself formally announced his candidacy on the republican ticket. Hennepin county (Minneapolis), is among the counties which included Hoover in the list of presidential possibilities.

Wood, Senator Hiram Johnson, Gov. Frank O. Lowden, Senator Miles Pindexter and Warren G. Harding, were listed in nearly all of the county ballots, according to available information.

4 AMERICAN SOLDIERS BURNED TO DEATH

(By Associated Press)

Washington, March 15.—Four members of the American expeditionary forces at Vladivostok, were burned to death in a fire which destroyed the American barracks, there on March 6th, according to a cablegram today from Major General Graves. The men are Privates Alex Labau, of Oakland, California; S. Merrill Martin, of Tulsa, Okla.; Julius Morris, of Ringford, N. J., and Jas. Brantley, of Fitzgerald, Ga. Two of the bodies were so badly burned that identification was impossible. No trace has been found of the other two.

PRESIDENT EBERT GATHERING FORCES

Berlin, March 15.—President Ebert, government leader ousted from power by a sudden reactionary revolt Saturday, is apparently gathering forces to combat the new regime here. He is being aided by labor forces which declared a general strike throughout Germany as a protest against a change in the nation's government. Reports from various other German cities indicate popular opposition to the new regime.

Berlin is alive with rumors that the old government is reported to be preparing to resist the Kapp government. It is also rumored that former Minister of Defense Noske of the old administration, is forming an army to march against the usurpers.

Grant New Jersey's Plea

(By Associated Press)

Washington, March 15.—The Supreme Court today granted New Jersey permission to institute original proceedings to test the validity of the Prohibition amendment.

New Jersey's application contended that the amendment was improperly drawn; that it had not been ratified properly in view of referendum provisions in the constitutions of 21 states, and that Congress had no authority to propose an amendment regulating people's morals and habits.

Chief Justice White asked that the case be considered with the other suits which had already been argued.

LOCAL DEMOCRATS TO ATTEND LOVE FEAST

Party To Hold Get-Together Conference and Banquet At Louisville Thursday

Quite a number of prominent Madison county democrats have received invitations to the Democratic Love Feast which will be held at Louisville Thursday, March 18th. Among those who will probably go from here are Judge W. R. Shackelford, Harvey Chensault, R. B. Terrill, J. W. Maupin, Mayor L. P. Evans, John Noland, Tom Collins, H. C. Rice, S. M. Sauley and others.

This meeting promises to be the biggest affair of the kind held by Kentucky democrats in a long time. Acceptances to the invitations are said to be literally pouring into the committee having charge of the arrangements and indications point to the event as one of the most notable political gatherings in the history of the State.

A banquet will be given in the evening at the Seelbach Hotel, which will be attended by members of the State Central and State Executive Committees, Democratic members of the General Assembly, Democratic Editors, Democratic Circuit Judges and Commonwealth's Attorneys, the chairmen of the Democratic Committees in the 120 counties of the state, and a number of others prominent in party councils.

The principal speakers at the banquet will be Mr. Homer S. Cummings, the Chairman of the Democratic National Committee, Mr. Cummings is one of the most forceful and graceful speakers in public life today, and the committee on arrangements are congratulating themselves on having secured him. The speaker on Kentucky affairs it to be Judge Alex P. Humphrey, of Louisville, whose preeminent standing at the bar, and broad grasp of public questions is everywhere recognized. Col. P. H. Callahan of Louisville, who has been the moving spirit in the work of the newly-formed Administrative Committee in the party, will act as toastmaster and the meeting will be called to order by Judge Charles A. Hardin, Chairman of the Democratic State Committee, who has also taken an active interest in the new party work.

No political meeting on such a comprehensive scale was ever before undertaken in Kentucky, and the enthusiasm which is being shown in the matter is taken as a splendid augury for party success in the state this fall.

H. H. BROCK BUYS CUT RATE GROCERY

Through a deal in business circles this week, the Cut Rate Grocery, which has been managed by E. S. Wiggins for the past sixteen years, becomes the future property of Mr. H. H. Brock, who with his sons, will continue the business under the name of H. H. Brock and Sons' Cash Grocery.

The new management took possession Monday morning, and they promise the patrons of this business enterprise every courtesy and will continue to hold up the standard which this grocery has maintained in the past.

It is understood that Mr. Wiggins and his brother, June, contemplate going into the wholesale brokerage business, and will be ready as soon as they can find convenient quarters to start their new enterprise.

Senate Rejects Substitutes Treaty Reservations

Washington, March 15.—Paving the way for a final vote on Article 10 reservation, the Senate today rejected, 59 to 17, Senator Frelinghuysen's substitute, proposing summary disavowal of all obligations.

The Senate also rejected the substitute reservation drafted by former President Taft, disavowing legal obligation, but giving Congress power to act under moral obligation.

Alabama Man Succeeds Roper Washington, March 15.—Wm. Martin Williams, of Alabama, will succeed Daniel C. Roper as Commissioner of Internal Revenue. Williams' selection was announced at the White House today. He is Solicitor for the Department of Agriculture and was recommended for his new post by Secretary of the Treasury Houston, who was formerly Secretary of Agriculture.

THIS HAPPENED BEFORE JULY 1

Our favorite barber-shop story is a
pompous Senator who was being shaved
by an old negro barber in a Wash-
ington hotel.

The Senator remarked to the bar-
ber "Uncle, you must have had among
your customers many of my distin-
guished predecessors in the Senate?"

"Yes, sar," said the barber, "I's
known most all of dem; by de way,
Senator, you remind me of Daniel
Webster."

The gratified statesman placing his
finger on forehead said, "Is it my
brow?"

"No, boss," said the barber, "it's
your breath."—New Era.

time with female
trouble. Some years
ago I had twin boys
and took your Vege-
table Compound be-
fore they came also
before my four year

and think it fine for such
cases. I tell others
what it did for me
and you may publish my testimonial."

The experience of Motherhood is a
trying one to most women and marks
distinctly an epoch in their lives. Not
one woman in a hundred is prepared or
understands how to properly care for
herself. Every woman at this time
should rely upon Lydia E. Pinkham's
Vegetable Compound, a most valuable
tonic and invigorator of the female
organism.

In many homes once childless there
are now children because of the fact
that Lydia E. Pinkham's Vegetable
Compound makes women normal,
healthy and strong and this good old
fashioned root and herb remedy con-
tains no narcotics or harmful drugs.

MERRIWETHER SMITH MAY GET IN RACE

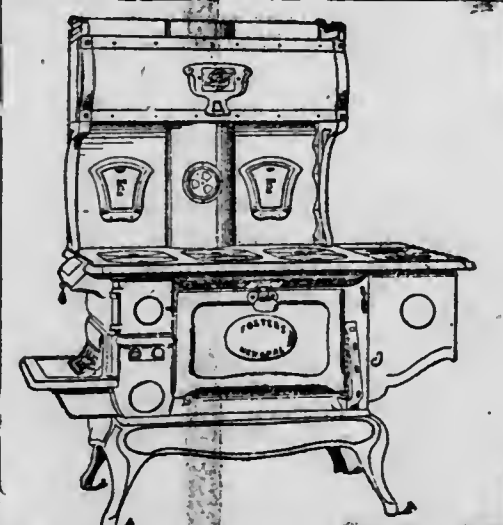

The Louisville Times says that
Major Merriwether Smith, of
Mercer county, who is a member
of the present state Senate, will
soon announce as a candidate for
Congress in the 8th. Major Smith
went to school at old C. U. in
Richmond, and has many friends
here. In the course of its polit-
ical gossip Saturday, the Times
had the following on 8th district
politics:

With his formal announcement
this week, Col. Frank Rippy, of
Lawrenceburg, is a full-fledged
candidate for the democratic
nomination for Congress in the
Eighth district, to be decided at
the August primary. He has be-
gun an active campaign and is
now going over the district mak-
ing his organization. Col. Rippy
saw active service at the front
during the world war and was
twice promoted. He is the first
military officer to seek a democra-
tic congressional nomination in
Kentucky, and if nominated
would oppose Capt. King Swope,
the incumbent, who is certain of
the republican nomination.

Major L. Merriwether Smith, of
Harrodsburg, at present State
Senator from the 20th district, has
stated that he will in all probab-
ility go after the Eighth district
democratic congressional nomina-
tion. Regarding the matter, he
said he felt assured of his ability
to win in the primary and defeat
Capt. Swope, republican, by 3,000
majority for the congressional
seat. Major Smith is still con-
nected with the military service,
and in the event he formally shies
his castor into the ring he will be
the second military man to enter
the list.

With Judge Ralph Gilbert, of
Shelbyville, and Col. Frank Rippy,
of Lawrenceburg, already in, Maj.
Smith, of Harrodsburg, a likely
starter, the democratic, congress-
sional race in the Eighth district
is regarded as made up. It is un-
derstood that Joe Robinson, of
Lancaster, and Judge Livermore,
Hoover, of Nicholasville, who
have been prominently mentioned
in connection with the congress-
sional nomination, have decided
to remain out of it this time in
the interest of party harmony. An
anomalous feature of the situation
is that the three candidates who
will make the race, are from ad-
joining counties.

As a safeguard against stran-
gulation from blood, John Galvin,
2, was suspended head down in a
Lexington hospital while a sur-
geon removed a safety pin which
had lodged in his throat.

TRAINED RAMS LEAD SHEEP TO SLAUGHTER

(By Associated Press).
Chicago, Mar. 15.—If it weren't
for "Mike and Jim," you'd have a
hard time getting those delicious
mutton chops for breakfast. No,
"Mike and Jim" aren't human be-
ings. They're just a pair of
trained rams that lead sheep to
slaughter in the Chicago stock
yards.

Cattle and hogs at the yards
have drivers who emit noises both
threatening and conciliatory—
young men who follow the ani-
mals to the killing floor and back
up their noises with the crack-
ing of long whips.

But not sheep and lamb. These
have no drivers, for they refuse
to be driven. But they can be
led—by one of their kind—and
that's where "Mike and Jim"
come in.

Every time a bunch of sheep
are to start for the shackling
pen and killing floor "Mike and
Jim" are trotted out. They meet
the herd, bow gracefully, right-
around-face and lead their new-
made friends over the "bridge of
sighs" to the shackling pens.

Out at the sheep killing depart-
ment they refer to Mike and Jim
as "pets." That's because they are
so well trained. They escort one
herd of sheep, then go back for
some more. Pets? That's what
some people call them. Others
say they're the Judas Iscariots of
the stock yards.

**IF YOUR BLOOD IS
WEAK, DON'T DELAY**

Take Gude's Pepto-Mangan, the
Great Blood Builder.

In your body are two gallons
(more or less) of blood, which is
constantly at work keeping your
system free of germs, removing
the waste tissues, and building up
new tissue in bone and muscle.
If this blood must be healthy for
your resistance to disease and fa-
tigue will be lowered, you will
become weak and both body and
mind will be less vigorous.

For building up blood weakened
by illness or other
causes, Gude's Pepto-Mangan, for
years prescribed by physicians, is
now generally known as a prompt
and reliable tonic.
Gude's Pepto-Mangan soon pro-
duces marked beneficial results.
The tired, worn-out, run-down
feeling disappears. And in its
stead a vigorous wholesome and
happiness proves that the blood
has been supplied with the sorely
needed richness to supply the en-
tire system with renewed
strength.

When you buy Pepto-Mangan
at your druggists be sure the name
"Gude's" is on the package. You
can get it in either liquid or tablet
form. If the name "Gude's" is
not on the package, it is not Pepto-
Mangan.

ELECTRICITY FOR THE FARMER

What is the farmer's time worth? What is he worth an hour? Does he charge his business—the business of farming—with the value of the time he gives to it? And does he know how much time he is giving to executive work and productive labor and how much to non-productive labor? The farmer who is not giving these things little thought is not in the front rank of those who are making of farming what it really should be—a business on a business basis.

The average gross income from a farm of one hundred and fifty acres will be something over \$3,000, and to produce that income 7,000 or 8,000 hours of productive labor are required. This makes the average productive labor cost about 40 cents an hour.

To make everyone of these 40-cent hours productive of its share of profits, it is necessary to reduce non-productive labor to a minimum, and in farming as in manufacturing it has been found that the best way to do this is to use labor-saving machinery. This profit.

small electric light and power plants now in use on many farms accomplish a lot of this labor saving. Instead of spending hours pumping and carry water for the stock and household olepsrpuos modern farm family has an electric pumping system installed, which keeps water at a pressure of 50 pounds wherever it is needed in the homes or barns. Grindstones, tanning mills and many other light power appliances in the barn which used to require the time of two men are now turned by electricity. In the house the pumping, churning, separating, sweeping, washing and ironing are all done by electricity relieving the farmer's wife of a great part of the burdens which have made her life a hard one. And of course electric light itself makes the farm home a bright and cheerful place to live.

Where electricity serves the farm family we find the best of living conditions, and we find too that every member of that family makes each hour of labor pay a little more.

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

SAYS SHE HAD "FLU" 3 TIMES WITHIN YEAR

System Badly Weakened As Result—Vola-Tonic Gave Her Strength.

Men and women who had influenza and experienced the weakened, run-down condition in which the disease leaves the system, will know how Mrs. G. M. Rutledge, who lives at 1021 Windsor street, Cincinnati, O., said she had influenza three times and was in a seriously weakened condition as a result.

"The three attacks of influenza left me badly weakened, and run down," Mrs. Rutledge said. "I had severe headaches constantly, and my nerves were out of order also."

"Vola-Tonic was recommended to me so highly that I got a bottle and started taking it. Before I had taken Vola-Tonic two days, I noticed a change all over my system. I could feel that I was getting stronger."

"I kept on taking Vola-Tonic and now I am much better in a great many ways."

"I know Vola-Tonic is a good medicine and I'm sure it would prove very beneficial in many cases like mine if taken according to directions."

Thousands of men and women who had influenza are still suffering from the nagging, energy-sapping after-effects of the disease. They have been unable to get back normal strength and health. In many instances ailing conditions of the stomach, liver or kidneys are distinctly worse since influenza came.

Vola-Tonic, "Builder of Strength," is what many of these men and women need. Vola-Tonic invigorates the entire system and builds up new strength and better health.

Vola-Tonic, "Builder of Strength," is being specially introduced in Richmond at Richmond Drug Company. It

Consider a man's clothes—consider their mission in the life of a man who is successful, or what they mean to the man who wants to be successful.

Clothes play a big part—in the ball room, in business, in school, anywhere.

Consider the man in the picture—in formal surroundings. The impression he makes, in company, depends very much on his clothes. Other things count, of course—but a man is judged, first by appearance, because appearance speaks before the man.

Kuppenheimer good Clothes

Signora Carolina de Fabritis, member of the faculty of the New England Conservatory of Music and one of the most popular mezzo-soprano concert singers in this country, leaves Boston this week to make her home in Atlanta, Ga.

Alexander Baron Holmes, husband of the singer and sales manager of a large mercantile concern, has just been selected as manager of the company's new Atlanta branch house, hence the removal of the family to

Southern climes. It is the intention of Signora de Fabritis to continue her work as a concert singer and vocal instructor in Atlanta.

Italian by birth, American by marriage and Bostonian by adoption, the singer is an exceptional musician and linguist.

"I hate to leave Boston," said the singer, but I had to choose between it and my husband. I have enjoyed my work at the Conservatory immensely. I shall miss my work here and all my Boston friends greatly, but am consoled by hearing from everyone that I shall enjoy Atlanta.

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire.

There is a harassing discomfort caused by Eczema that becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle today, and you will see results from the right treatment. Write for advice. FOR SALE

On account of moving from Richmond I will offer our home on Main street for sale; an 8 room house with bath, electric lights, water and gas, and a small room on porch; all in good repair with lot 160 feet by 342 deep, with garage, stable, corn crib, servant house, coal house, smoke house and hen house with good concrete cellar. Young fruit trees and good size building lot on each side of house can be sold off if desired. Everlasting stone wall in front; front drive.

It is one of the best homes in the town.

Can grow from \$600 to \$1,000 tobacco each year on place. It will pay any one who is thinking of buying a home to come look at this place before buying. Can give possession May 1st, and possibly earlier.

Also a good five-room house on Big Hill avenue with hall and porches and good stable and shed for an auto; smoke house and coal house. This place joins Judge Rice's property and will make a good home for some one, or a good investment. It has gas in the house.

Joining this property, have a small house with three rooms and pantry, a good home or a good investment. Property that's always rented.

Will sell either or all of above property privately. Not selling for a speculation but leaving the city.

WHAT we're aiming at, is that it takes both skill and precision to blend tobaccos the Chesterfield way.

Blending, by Chesterfield's method, brings out a new richness of flavor and mellowness of taste that other and less skillful blending methods fail to "discover."

Chesterfields sure do "satisfy"—and not in flavor alone, but in value, in quality, also in their extra wrapping* of moisture-proof, glassine paper that keeps the cigarettes in every package firm and fresh.

Today, ask your dealer for these "satisfy-smokes."

liquor he goes out and makes it, regardless of whether it is day or night, summer or winter. While he plants potatoes in the dark of the moon to obtain best results, he thinks liquor is made, regardless of when it is made. In many instances a moonshiner's children assist him around the still, but when it is raised there is no power that can make them talk. The art of keeping silent is instilled into the mountain mouths as soon as they are big enough to observe what takes place around them and they never out-grew it.

The revenue agents, known in the moonshiners' vernacular as "revenues" or "marshals," are immediately spotted when they enter moonshiner territory. Then the word is immediately sent broadcast. While people in the cities would be trying to get central to spread the alarm by telephone, the mountain lads are sprinting over the hills.

A stranger in the mountains where moonshine is made is a man without a country, constantly suspected and always watched. None of the natives will speak to him or have any dealings with him whatsoever until they find out his business.

It is the man who "squeals" for whom the Kentucky mountaineer has the utmost contempt. He labors little enmity for the officers who place

him under arrest and destroys his coveted still. He figures that is the officer's business. But he can neither forgive nor forget the person who gave him away.

The first question a moonshiner will ask when he is caught, Mr. McFarland said, is not what the penalty is, but who told on him. He tries every way to obtain this information with the hope of ultimate wreaking his vengeance, but the revenue agents never betray a confidence. The name of the man who reported the location of a still is known only to the officers.

Mr. McFarland says the average moonshiner differs in all respects from the romantic type depicted in the movies, where the "hero" makes whiskey with one hand and holds the other

hand on the trigger of his trusty shotgun.

It is very seldom that an armed man is found working at his still, as the moonshiner will never meet an antagonist face to face, Mr. McFarland said. If he wants to get an enemy out of the way his favorite method is to waylay him or to conceal himself behind a tree and fire upon him. He knows if a man is killed near his still that he will be suspected of the crime.

The moonshiner always respects his women, whatever his other faults may be and in all his experience with this type of law-breaker. Mr. McFarland has never found a woman working around a still. She does not think it wrong for the men to defy the government, but she considers her place is in the home and there she stays.

Time was when whisky-making was licensed by the government, but even then the campaign against illicit makers of it was conducted vigorously. The moonshiner could never understand this. It was his opinion that he was being discriminated against and that the government was favoring those who had money and who lived in the cities.

But, with the coming of prohibition this has changed and the moonshiner realizes the chance he is taking. He takes his arrest in a sportsmanlike manner, having played the game and lost.

Moonshiners generally sell their product to bootleggers, who have standing orders for their entire output and who then peddle it.

As soon as the liquor is made it is put in a jug and buried or placed in kegs and covered with leaves to prevent detection. When it is buried marks are made on bushes or on trees to show the owners where the "treasure" is when they find themselves in need of it.

Only in the cases of the most ignorant moonshiners is liquor ever found in residences. This is a chance the shrewd 'shiner never takes.

In making liquor, the mountaineer is able to tell when it is at the right temperature by dipping a small vial in the liquid and looking at the "head." This is one of the most difficult phases of the process, but the trained moonshiner is able to judge the right temperature with a wonderful degree of accuracy.

Since prohibition went into effect here has been a decided increase in moonshining, Mr. McFarland said. Before that time the corn product of the mountain sold for \$2 a gallon. But the market he strengthened considerably since then and now commands \$40 a gallon.

As a result of the high prices the better class of men in the hills is getting in the game, Mr. McFarland said. These men, many of whom are influential citizens, are wise enough not to go around the stills themselves, but they furnish all the money and put an ignorant man in charge to operate it.

The only bond required of the operator is that he will agree to say nothing if caught. In turn, the real owner agrees to take care of the operator's family until he returns from prison and is again able to eke out an existence with a copper kettle, a worm and a stream of water.

Thus the "man higher up" enters the Kentucky moonshining game and converts what little romance was ever attached to it into a purely commercial proposition.

Great Dog Derby Start Up North Tuesday Night

(By Associated Press)
The Pas, Man., March 15—The 1920 Hudson Bay dog derby will be started here Tuesday night, March 16th, at 10:30 p. m., with a searchlight and huge bonfires lighting up the trail on the banks of the Saskatchewan. A field of 21 entries is looked for, comprising the finest breed of huskies obtainable in the north. It is non-stop race of 100 miles and the various teams are being trained to

sprint from the start. The trails are reported to be heavy and drifted in spots and the race executive will send out a few teams the day before the race in order to break such parts of the trail that require it. Distemper has afflicted a number of the racing dogs but no fatalities have been reported and the teams are said to rounding into shape rapidly.

SIX FEET FOUR COMING

A Big "Special" of American Life. Would you like to experience once again some of those delightful thrills that used to chase each other up and down your spine, back in the early days of motion pictures, before you became so case-hardened and blasé? Then save a night for "Six Feet Four." It is unique—the biggest, speediest, most dramatic picture of our western country ever filmed, abounding in thrills and suspense and tense situations. Just released by the American Film Company, Inc., it is going to have a showing at the local theatres of this city Tuesday.

William Russell, peppiest and most likable of all the big "he-men" who have won fame through their interpretation of man's size roles, enacts the part of Buck Thornton, nicknamed "Six Feet Four" because of the excess inches which make him stoop to enter all doors save those in his own house.

"Six Feet Four"—the hardest rider, the quickest shooter, the manliest love-maker, the truest friend of them all, is just the sort of character "Big Bill" excels in portraying. He performs breath-catching stunts, but he does them so easily and in such a casual, matter-of-fact way that they don't label themselves as such and for that very reason are hundred times more thrilling and hair-raising.

The story of "Six Feet Four" is superbly suited to screen presentation—as you know if you've read the book. There is an absorbing plot in which mystery, comedy and romance are delightfully blended—and there is action every second.

DOCTOR'S PATIENT GAINS 17 POUNDS

Prominent Physician Continues To Use Tanlac In Practice With Surprising Results

One of the strongest and most convincing evidences of the remarkable results being accomplished by Tanlac through out the country is the large number of letters that are now being received daily from scores of well-known men and women who have been benefited by its use.

Among the large number that have been received recently none are more interesting than the following letter from Dr. J. E. Edwards, of Fayetteville, Ga. Dr. Edwards, it will be remembered, recently gave Tanlac his unqualified indorsement in a public statement, and the testimonial published below was recently given him by one of his patients. His letter follows just as it was written:

Fayetteville, Ga.
Mr. G. F. Willis, Atlanta, Ga.

Dear Sir:
I am enclosing you herewith statement I have just received from Mr. T. M. McGough. He has sold out here, and is moving to Turin, Ga. He was here this morning and came in to tell me what Tanlac had done for him. He says too much cannot be said about Tanlac. It certainly cured him.

Respectfully,
J. T. Edwards, M. D.

Mr. McGough's statement follows:

"I suffered from indigestion and could not eat anything but what would hurt me. Constipation gave me a great deal of trouble also. My symptoms were indigestion, heartburn and gas on the stomach after eating. My appetite was irregular and food failed to nourish me. The trouble caused me to get very poor—in fact I got so thin and weak I was hardly able to go about.

"I bought three bottles of Tanlac on Dr. Edwards' recommendation, and I am now feeling all right again, and am able to attend to business. I gained 17 pounds in weight and am doing fine. Tanlac did the work.

"I now recommend Tanlac to everyone who is sick like I was and wishes to take something that will help them."

Tanlac is sold in Richmond by Stockton & Son.

Is he digesting?

It's not what the horse eats—it's what he digests that makes him strong. Oats is a good feed but up to 20% passes through the system whole—undigested, a total waste. The oats in Purina O-Molene Feed are crushed and then sprayed with hot molasses, none wasted. The corn also is cracked. Purina O-Molene Feed, the heavy crushed grain ration, contains all the elements to give a horse energy and produce muscle, blood, hair and hide in proper proportion.

Would You Lose If Your Property Burned Today?

The destruction of that \$5,000 home you built a few years ago would lose to you the original cost, plus another \$5,000. For it costs \$10,000 now to build the \$5,000 home of 1914.

Likewise the loss of today of the business property that cost \$50,000 before Germany went mad, would be \$100,000—probably \$100,000 would not replace it.
